Widget Play Panel

Children can spin cogs and marbles on either side of Widget Play Panel, enjoying the tactile experience while building their fine motor skills. Available both elevated and at the ground level, this modular panel can be used with the manipulative gears for play or as a barrier without them.

Material Specifications

The panels shall be constructed of Mira-Lene™. The panels shall be supported between posts by tops and bottom rungs (as required) of 1" pipe, each with two tabs of 11 ga. A-60 Galvannealed sheet, solid welded. In addition to above panel materials, panel shall feature a combination of perforated 11 ga. A-60 Galvannealed sheet, ½" HDPE, and marble accents fastened to the panel.
