

Balance Orbs

CHAMPIONS TREK™

Top View

Balance Orbs

This obstacle presents kids with an opportunity to flex their balance and coordination with spinning rows of orbs at varying heights. Not only are these rows arched in design, but an extra row sits suspended at the top for kids to either climb over or duck under. Whichever way they choose to take on the spheres, Balance Orbs develops children's physical ability as well as builds a sense of community on the playground.

Material Specifications

Balance Orbs Frame: Shall be made from 3.5in and 5in 11ga. (3mm) galvanized steel tube and 5/8" mild steel block hanger.
